

# WFP PRO-GRADE COASTAL HEM-FIR

## REDUCES CO<sub>2</sub>

Building with natural wood products can help reduce CO<sub>2</sub>.

## RENEWABLE

Wood is the only major building material that's renewable.

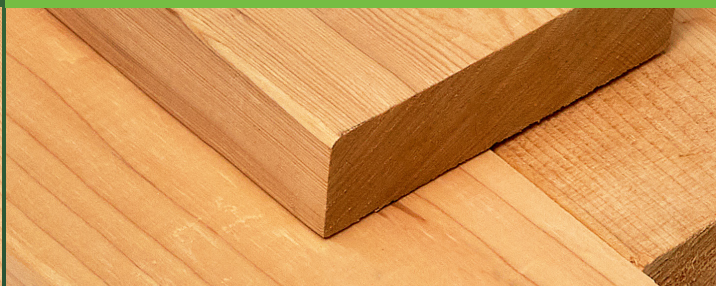

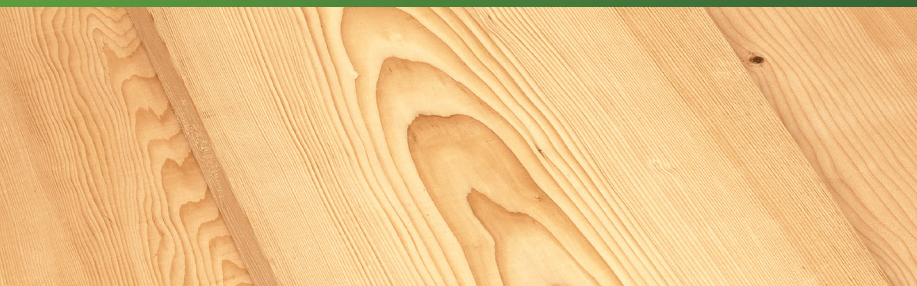

## BIODEGRADABLE

Wood is recyclable and biodegradable.

## WHEN ONLY THE BEST WILL DO.

WFP PRO-GRADE is the premier brand for coastal Hem-Fir outdoor living products. WFP PRO-GRADE products are ideal for pressure treating as Hem-Fir requires less chemicals to achieve penetration, noticeably lighter compared to composites, and easier to work with compared to other species. WFP PRO-GRADE products are held to the highest quality standards to ensure a consistent quality of fiber and manufacturing.

### WHY WFP PRO-GRADE IS THE BEST CHOICE

WFP PRO-GRADE products are manufactured as an appearance grade product with square edging and an ultra-smooth surface making it ideal for decking and outdoor living structures. Hem-Fir has always been valued for its beauty, strength, pressure treating performance, and versatility. Hem-Fir is known for being an easy wood species to work with and a cost effective solution compared to alternative substrates and species. All products will come with minimal to no wane, no decay or rot, and very little presence of splits or checks.

WFP PRO-GRADE is made from coastal Hem-Fir and harvested in some of the most sustainably managed forests in the world.

Western Forest Products® is a leading forest products company that manufactures high-quality wood products.

Headquartered in Vancouver, British Columbia with operations in the coastal region of BC and Washington State, Western Forest Products meets the needs of customers worldwide with a specialty wood products focus and diverse product offering.
