

WFP TRUESTYLE® SIDING & SOFFITS
KNOTTY WESTERN RED CEDAR

WFP TRUESTYLE® SIDING & SOFFITS
KNOTTY WESTERN RED CEDAR

WFP TRUESTYLE® Siding & Soffits are Western Forest Product's premium line of high-quality, Western Red Cedar exterior appearance products. Milled in a wide range of lengths and profiles, all boards are high-grade, 100% natural wood products that display a rich, deep beauty and grain, and a silky luster. WFP TRUESTYLE® Siding & Soffits are available in wide range of profiles and can be installed in either direction depending on your design.

BENEFITS OF BUILDING WITH WESTERN RED CEDAR

REDUCES CO₂

Building with natural wood products can help reduce CO₂.

RENEWABLE

Wood is the only major building material that's renewable.

BIODEGRADABLE

Western Red Cedar is recyclable and biodegradable.

WESTERN RED CEDAR

Western Red Cedar grows in a spectrum of hues ranging from a light honey yellow to a deep sienna red, sought after for its warm, rich look and deep, natural luster. The combination of Western Red Cedars grain, texture, and colours creates a naturally luxurious and prestigious product that no man-made material can replicate.
